ABOUT

I am a self-taught web developer, seeking a full-time position in the field of front-end development, where i can apply my knowledge, skills and also develop myself further by learning new technologies and working with people and projects that will challenge me.

I am highly motivated, creative and problem-solving-oriented person who enjoys learning new things.

PROJECTS

MY PERSONAL PORTFOLIO: https://diebanz.works

- My portfolio was the first big project in the end of HTML/CSS module. Keep updating and upgrading.

PERSONAL WEBSITE FOR MR. JOZEF WIELOGORKA: https://wielomiod.pl

- My first commercial project where i designed the workflow and created frontend.
- Colloborated with my husband as a backend developer to grasp some experience of real working as a team and also explore deeper the github and git.
